

Rx³ Compounding Pharmacy

Quality Reliability Integrity Excellence

Rx3 Compounding Pharmacy welcomes the opportunity to prepare your prescription. Rx3 realizes you have the right to choose your pharmacy. Thank you for allowing Rx3 to be a part of your healthcare team.

All formulations are compounded by a Rx3 Compounding Pharmacy licensed pharmacist to the exact needs of each patient per written request of a licensed practitioner. Any formulation listed as a compound on the form above has not been reviewed by the FDA for safety and/or efficacy. Rx3 Compounding Pharmacy adheres to guidelines set forth in USP 795.

FAXING INSTRUCTIONS

Please fax patient demographics and insurance information including a copy of the insurance and prescription card. Also, be sure all of the prescription information is completed:

- Practitioner's Signature • Indicate formulation(s) desired • Verify Directions • Indicate quantity to dispense • Indicate refills
- Fax all insurance information including prescription card information and a copy of card.

NOTE: Missing information, such as patient physical address, phone number, copy of insurance card or prescription card information, may delay the preparation and delivery time of the prescription.
